

Danger Down the Road

Joe Bruno, Summer of 2000

Danger down the road (X3)

We will find a way to protect our souls;
We'll find a way as we're growing old.
Every time they try to do us in,
that is when the good time will begin.

Teach the children how
Teach the children how
Teach the children how.

How to love the land –
How to hold a hand
How to take a stand
Don't you know we can.

Danger down the road (X3)
