

Defying Gravity

Jessie Winchester, 1972

We live on a big round ball
I never do dream I may fall
And even one day if I do
I'll jump off and smile back at your

I don't even know where we are
They tell you we're circling a star
Well, I'll take their word, I don't know
But I'm dizzy so it may be so

We're riding a big round ball
I never do dream I may fall
And even one day if I do
I'll jump off and smile back at you
