

My Dad the Bridge Tender

Joe Bruno

My dad the bridge tender, is a mighty mighty man
He blows that horn and stop the traffic
Cycles, cars and vans
Lights a flashin, children dashin, stopping all those wheels
The man up in the tower liftin 40 tons of steel

(CHORUS)

**Papa he's a big man
People come from miles around
Boats they blow their airhonds
Don't you know their southern-bound**

The snow birds cruise the coastal from Canada to Maine
Crusin down the water way to see that man of fame
The bridge goes up the bridge goes down
Guiseppe's in control
The bardge is moving swiftly now she's really on a roll

(CHORUS)

Pauline is his sweetheart
They've been married 50 years
She calls him every hour
Sweet music to his hears
Lights a flashin, children dashin, stopping all those wheels
The man up in the tower liftin 40 tons of steel

(CHORUS)

Lights a flashin, children dashin, stopping all those wheels
The man up in the tower liftin 40 tons of steel

The man up in the tower liftin 40 tons of steel
